There is too much through traffic in the town centre including HGVs. It is also unsafe in areas for pedestrians notably outside Harpers.

I suggest alternative routes for through traffic should be considered especially HGVs allowing routes to the town centre for access only. This could be enforced by signage and supplemented by traffic calming measures especially at pinch points e.g. outside Harpers and at the top of New Street before the road bends into the market place. These steps, together with improved visitor signage, would help to make the town centre more attractive for visitors and as a result would have beneficial effects for retail businesses in the town.

*Current* residential neighbourhoods need traffic calming measure. The Leys in particular is used as a ‘rat run’ from the Churchill Road to the A44 especially in the mornings and evenings making it dangerous for residents and especially families with small children. Closing off one end of the street would stop this and help improve the community.

Please state whether you would like to be notified of the Council's decision on the Neighbourhood Development Plan Proposal:

Yes [X] No [ ]

This form can be emailed to community.development@westoxon.gov.uk or posted Community Development, West Oxfordshire District Council, Elmfield, New Yatt Road, Witney, OX281PB, by 5pm on Friday 31st July 2015.
