Subject: Proposed diversion of Footpath 206/30 part of Station Road

Dear Ms. Harvey,

We wish to object in the strongest terms to the proposed moving of the the above pathway to an *alternative* location from the *original* proposal plan from Polar Energy.

Firstly, this was a key part of Eynsham's Neighbourhood Plan in being retained as a green space. And more importantly, moving the path to an alternative location is not a satisfactory solution as the original location cannot be replicated since it has been old railway line for decades and as such has developed a unique habitat of important flora and fauna - recognised as being of significant scientific and heritage value.

Would you therefore please add our names and the above reasoning to the list of objections.

Yours sincerely,

Dr and Mrs T C Jordan
