Subject: Eynsham footpath LGS9

Dear Astrid Harvey,

I have just been told of plans to change the line of this footpath. It is the old railway track and very rich in wildflowers and insects. This is an environment that cannot be recreated overnight, or even over a few years. I do not think any diversion of this path should be allowed, surely this important area can be saved with some clever planning! It is, incidentally, 'local green space' in the Neighbourhood Plan.

Best wishes,
Eleanor Chance
